First Sample Specification Sheet (v3) — Prepared for Yamamoto EXCY · August 2026

Client Body Baseline (measured in person)

Master client fit profile, verified over multiple completed garments. All values in cm unless noted; ease = finished – body. The finished measurements and adjustment tables on the following pages are the values to cut against; they already include the correct ease for this client. Shell fabrics: suit in navy worsted wool Super 110s–120s, shirt in white two-ply ~100s cotton poplin — please propose options. Buttons, thread colors, linings and contrast fabrics are chosen per order from the factory's catalogs — please share the ranges available to us.

Fit Rules & Notes

Fit Rules (learned across completed garments — please respect)

Shoulders	Cut against 44.5–45.0 finished shoulder. The body reads slightly square: a sloping-shoulder cut produces a horizontal fold below the collar; keep slope NORMAL both sides.
Jacket balance	Preserve front–back balance of +2.5 (front length 75.0 vs back 72.5).
Belly ease	The jacket's tightest margin — finished belly 116.0 over a 113.0 body point; do not reduce.
Trouser back path	Seated comfort requires U-rise ease $\geq +3$ (target 74.5) and back rise ≥ 45.5 . Non-negotiable for the slim trouser.
Leg opening	Must clear the 36.8 calf — floor is 37.0.
Iteration	This profile is proven on previous garments; if the factory recommends deviating, please change one variable at a time and tell us which.

Notes

Purpose	Evaluate sewing quality, construction, finishing and fit accuracy against the measurements above, before discussing an ongoing MTM program.
Measurements in production	All client measurements are taken in person by Blessed & Dressed during private consultations (full body measurements and garment measurements). Each order arrives as a per-order spec sheet in this format.
Tolerance	± 1.0 cm on lengths and circumferences, ± 0.5 cm on collar, shoulder and cuffs.
Shipping	FedEx/DHL to the United States (Louisiana, ZIP 71234 area); exact address confirmed at order.
