

# ‘Made in Japan’ tailored suits produced by the best sewing factory in Japan

Our sewing factory is certified with three stars, the highest possible rating by International Association of Clothing Designers and Executives(IACDE). Our factory is located in Fukushima where our very fine products are made with the most innovative, high quality machinery and years of experience. We always look at ways to improve, under strict quality control and with high quality standards.

We manufacture tailored suits for well known department stores, famous boutiques and well established tailors.

We are one of the most renowned Japanese tailored suit manufacturers and we guarantee "High Quality, Affordable Prices and On time delivery"

# Commitment to perfect our original patterns

**G X**  
**EXCELLENT**

Japan Made Order Suit

We have created our original pattern by combining “Contemporary” and “Global” elements. This ideal pattern, based on traditional British styles mixed with hints of Italian influences was perfected by Norimitsu Shibayama, who is President of the Japanese Modelist Association, an IACDE member and one of the leading modelists in Japan.

For the “Contemporary”, he adjusted the body fit, reduced the amount of the shoulder padding to offer comfort to the wearer, and designed an elegant body fit. He also set the waist line higher to ensure a classy silhouette from the back.

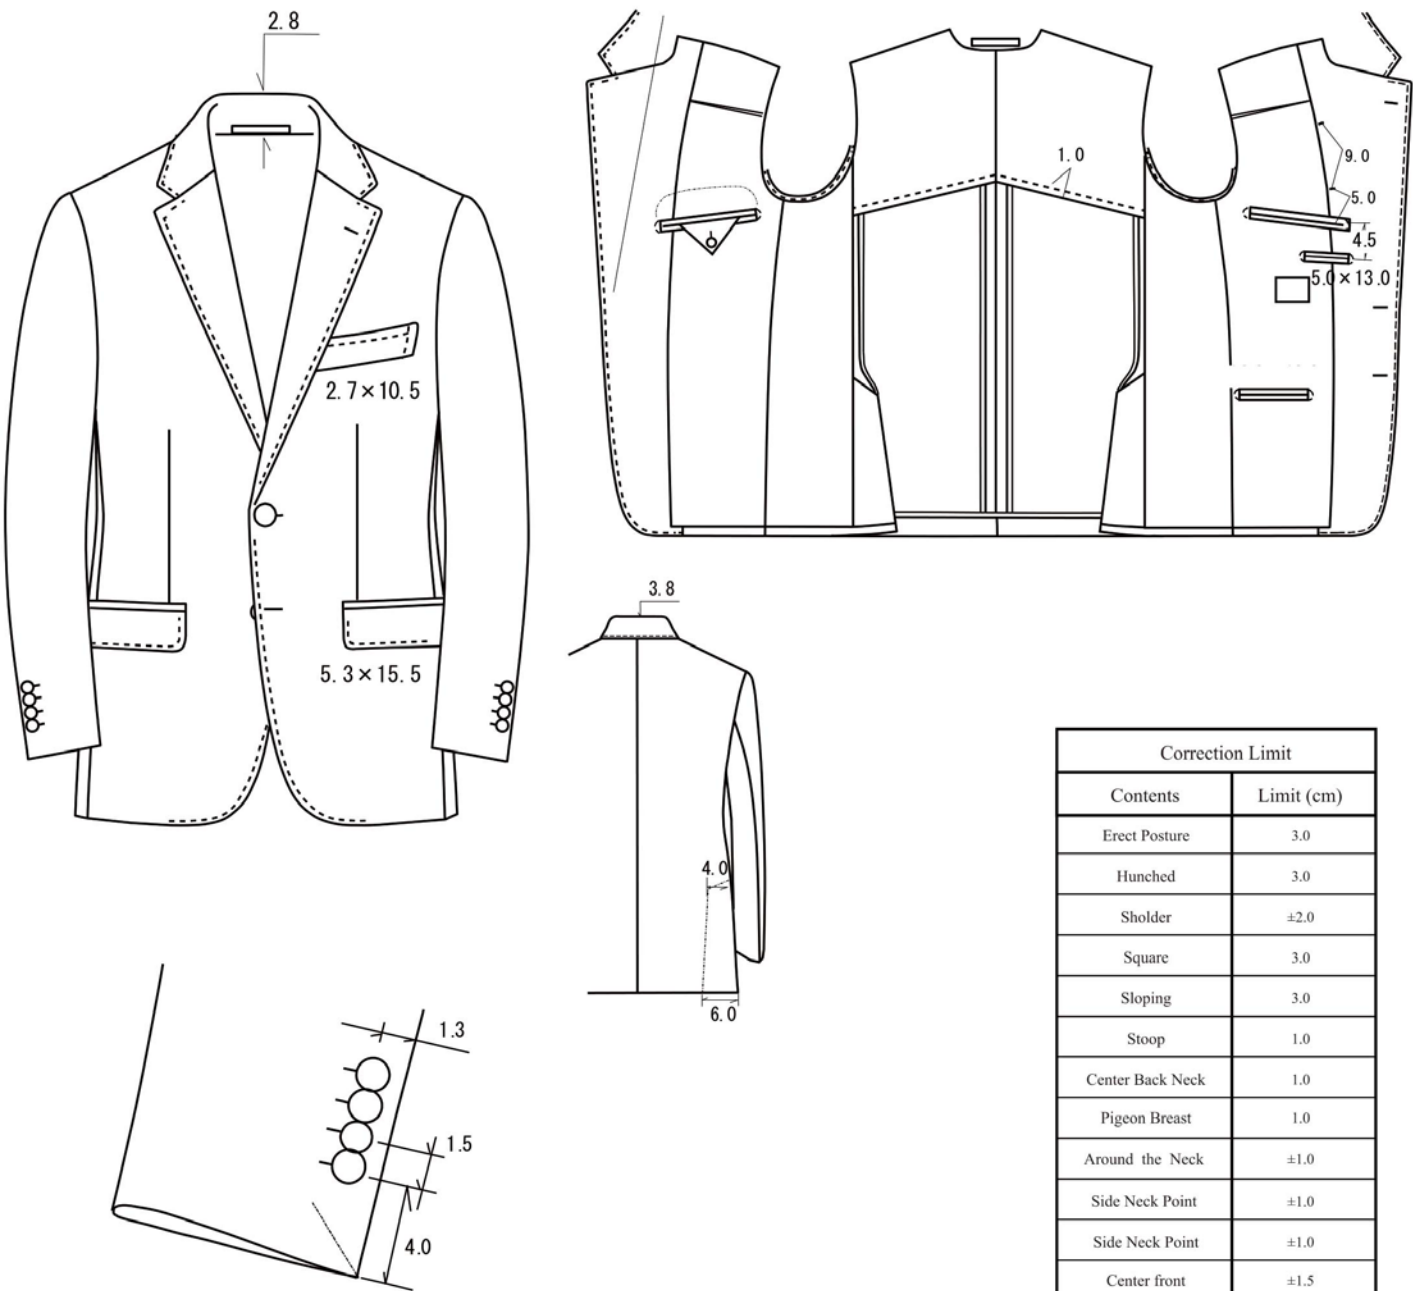

As for the “Global element”, he broadened the range of size and drops. Now we have a selection of 6 drops and a total of 69 sizes to make it possible for the wearer to find the right fit. We also offer three different shoulder lines: the natural shoulder, buildup shoulder and manic-a-camicia to add versatility to your look. Our waist coats match this style with an emphasis on a natural fit. Our trousers offer comfort as well as a lengthening effect.

We also use only selected garment materials.

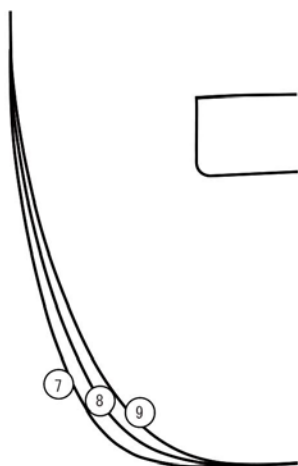

Our lining material is 100% cupra and all buttons are made out of horns. For interlining canvas which is invisible but plays an important role to hold the shape of the suits, we use constructive canvas for British style and soft and light canvas for Italian taste.

We offer original waist interlining made with 100% cotton sleek for trousers and 100% stretchy cupra for lining for the knee.
